**Idaho Nursery & Landscape Association Congratulates
One “Certified Nursery Professional” and
One “Certified Plant Diagnostician”
at the Annual Idaho Hort Expo in Boise, ID**

The Idaho Nursery & Landscape Association’s Certification Program recognizes individuals as trained professionals with skills, knowledge and expertise in the horticulture industry. During the 2009 Idaho Horticulture Expo, five people showed their commitment to professional excellence by taking exams.

During the 2009 Idaho Horticulture Expo, held in Boise, the following individual was certified as a **CNP**:

Sara Cimbalik, Franz Witte Landscape Contracting Inc. in McCall, Idaho.

The Certified Nursery Professional Exam consists of two portions, a 200 question written portion that tests knowledge in 9 different domains of horticulture; and a 200 question Plant Identification Exam that tests your skills in Plant ID.

During the 2009 Idaho Horticulture Expo, held in Boise, the following individual was certified as a **CPD**:

Eric Celmer, Jayker Treasure Valley Wholesale Nursery Inc., Meridian, Idaho.

The Certified Plant Diagnostician (CPD) exam is a written examination consisting of questions all relating to diagnosing plant problems including (but not limited to) proper identification of the insect, disease, or herbicide that may have caused the damage.
