Idaho Nursery & Landscape Association Presents Three Scholastic Awards at 2018 Idaho Horticulture Expo

During the Idaho Horticulture Expo, three students were chosen for their scholastic record, student need and their ability and sincerity in pursuing employment in the green industry in Idaho. Each student received a check for \$750.00. Listed below are students who won the scholarships:

Jared Adamson, from Shelley, Idaho, is currently attending Brigham Young University- Idaho. He is a college senior majoring in Agronomy – Crop and Soil Science. He chose this major because “it is where [he] could best showcase [his] passion for the horticulture/agriculture industry.” Jared had the opportunity to go to Ghana and teach high school students and farmers sustainable crop production. “In the next five years [he] strives to attend post-graduate school to obtain [his] masters in plant pathology” and later enter a career as a plant protection specialist and “[get involved] with government officials to advocate the importance of the nation’s green industry.”

Stanford Nash, is currently attending Brigham Young University- Idaho. Stanford is a college senior majoring in Horticulture with a minor in Build and Design. He chose his major because “something about being outside makes [him] want to progress in life and create for others.” After college Stanford plans to work at Davey Tree Care.

Penelope Rose is currently attending the College of Western Idaho but has attended college both in Oregon and in South Africa. She is majoring in Horticulture with special interest in FireWise landscaping and edible gardening. As a mother of three girls, a full-time college student, and an active volunteer in the Idaho FireWise Garden and her daughters’ schooling, Mrs. Rose is highly motivated and a well deserving recipient of this scholarship. After college she plans “to focus on and specialize in FireWise landscaping, design, and installation.”
